CROKER HAS NO CANDIDATE.

ANGRY AT REPORT THAT HE FA-VORS M'CLELLAN FOR MAYOR.

Didn't Discuss the Campaign With A. H. Hummel-Repeats That He Is Out of Politics Forever-Is Attending the Races in England and Looks Well.

Special Cable Despatch to THE SUN. London, Aug. 21.-Richard Croker, as brown as a berry, attended the race meeting at Hurst Park to-day. He expressed indignation at the statement that he had favored, through a mouthpiece, A. H. Hummel, the candidacy of George B. McClellan for Mayor of New York. The suggestion that he was interfering in polities and attempting to dictate nominations in New York from England annoyed and angered him. He authorized a friend to make this statement on his behalf:

"I emphatically deny the truth of the reports that I told Mr. Hummel I favored the candidacy of Mr. McClellan for Mayor. It is true that I had several chats with Mr. Hummel while he was in London, but they were confined solely to legal and personal matters. We did not discuss politics. I repeat that it is not true that I told Mr. Hummel or anybody else that I favored Mr. McClellan.

"While naturally I am interested in public affairs as a citizen and particularly as the ex-leader of Tammany Hall, yet I would consider it the height of presumption on my part to make any suggestion about the nomination for Mayor or other offices. I want it emphatically understood that I have not done so. I observe the statement quoting Mr. Hummel was published while he was at sea and when he could not deny the truth of the statement attributed to him for several days.

"The assertion that I favored any particular candidate was evidently inspired by a desire to injure Mr. McClellan's candidacy by suggesting that I am attempting to dictate in New York politics from here. If so, it was a contemptible piece of politics on the part of the enemies of Tammany Hall. It is a character of work that Tammany would never resort to. I want to state again emphatically that it is a fact that I am out of politics forever."

Americans Fight Haif a Day in a Deep Morass.

Special Cable Despatch to THE SUN. Manila, Aug. 21 .- After four months of unsuccessful efforts to arrest by peace-

able means the Moro assailants of Sergt Painter and regain the guns stolen at the time, the American troops at daybreak yesterday attacked the stronghold of the Dattos of Binang-Binang. At the outset of the attack a Moro fa-

natic brandishing a kriss rushed at Major Bullard of the 28th Infantry and slashed the hat on the commander's head. Before he could strike another blow, however, the Moro was shot dead by Corporal Doyle. The fighting lasted for half a day in a waist-deep morass on the shore of Lake

Harshness the Cause of Emigration to This Country. Special Cable Despatch to THE SUN.

LONDON, Aug. 21.-Letters from Helsingfors, dated Aug. 18, say that there is renewed emigration of Finns owing to the cancellation of the Constitution. The harshness of the Russian authorities occasions many pathetic scenes.

Several hundred emigrants recently started for the United States. Their departure was quiet, but a large crowd of relatives and friends accompanied them to the pier wearing mourning.

They refrained from making too great manifestations of grief, in order not to furnish the Russian police with a pretext to interfere. The emigrants included men. women and children of all ages and social conditions.

After the vessel sailed the crowd dispersed. They were perfectly orderly throughout. Nothing in their attitude showed the depth of feeling against the regime which is compelling so many honest folks to quit their native soil, which has become for them a scene of persecution.

JAMAICA NEEDS MONEY.

Applies to Colonial Secretary Chamberlain for a Loan. Special Cable Despatch to THE SUN.

KINGSTON, Jamaica, Aug. 21.—The Government has applied to Colonial Secretary Chamberlain to arrange a loan of £20,000 to relieve the distress among the planters caused by the recent hurricane which devastated this island. If the loan is not obtained Jamaica will be ruined.

LIPTON'S PROMISE TO WED. Evidently a Cause for Worry on Some Glasgow Girl's Part.

Special Cable Despatch to THE SUN. GLASGOW, Aug. 21.-A correspondent writes to the Citizen, asking, if it were true that Sir Thomas Lipton stated at a banquet that in case Shamrock III. won the America's Cup he would marry an American girl, and if so, whether he would carry out his promise

Won't Act as Venezuelan Arbitrator.

Special Cable Despatch to THE SUN. BERNE, Switzerland, Aug. 21 .- Dr. Lardy, the Swiss Minister at Paris, who was chosen by the Czar as one of the arbitrators in the matter of the priority of the claims of the blockading Powers against Venezuela, has declined to act. He bases his declination on Article III. of the protocol signed at Washington, which provides that no arbitrator shall be appointed from a country having claims against Venezuela. Switzerland has claims against that country.

LOOKING INTO COUNTY AFFAIRS. An Investigation of Middlesex Freeholders

Sought in New Jersey NEW BRUNSWICK, N. J., Aug. 21 .- The financial affairs of the Board of Freeholders of Middlesex county are to be investigated under the direction of the Supreme Court. This county is governed by a board of twenty-four men who receive \$2 a day for every day that they look after county affairs. Although all have other business to look after, some of the members, it is said, make a charge against the county for every work-

ing day ir. the year. The Grand Jury after an investigation made a presentment in which the board was criticised for giving extravagant contracts to favorite contractors, for build ing roads for a steamboat company in which the director of the board is interested, and for depositing the county funds, without interest, in a small bank in which the direc-tor is interested while large banks offered

When the Grand Jury had made these revelations it decided that it was time to revelations it decided that it was time to stop and let a court commission make a thorough examination. The jury made such a recommendation to Supreme Court Justice Fort. A number of citizens of the county also petitioned for a commission, and Justice Fort has just replied that he will hear the matter here on Sept. 15.

All of the transactions connected with the building of the big bridge across the Raritan River, between Perth Amboy and South Amboy, will be reviewed.

BULGARIAN REPORT ACCUSES THE TURKS.

Conflicting Accounts of What Has Happened at Krushevo-Turkish Version Says Only 44 Persons Were Killed There-Insurrection Still Spreading.

Special Cable Despatch to THE SUN. LONDON, Aug. 22 .- The news from the Balkans since the arrival of the Russian fleet at Iniada has been scarce, but a report from Monastir declares that the Turks butchered 200 Bulgarians near there after they had surrendered.

There are conflicting accounts of what has happened at Krushevo. The Bulgarians say that the Turks entered the town on Aug. 14, pillaged houses, violated many women, stripped many naked and killed about 300 local Bulgarians and 60 innocent Greeks and Wallachians.

About 8,000 people are now homeless and starving. The material damage amounts to several million francs. A Turkish version from Constantinople says that forty-four persons, including

two women, were killed during the operations at Krushevo. Two women were violated by troops. A hundred insurgents who were taken prisoners were marched to Monastir and released.

It is reported that the Sultan has sent s steamer with provisions for the Turkish

The report that insurrection has broken out in the eastern part of the Vilayet of Adrianople, close to the Bulgarian frontier. is regarded as the most alarming feature of the situation. All the Turkish forces in Macedonia have been mobilized. It is believed in Sofia that the Russian naval demonstration has encouraged the revolutionists beyond recall.

A despatch to the Standard from Constantinople says it is understood that the Russian warships will leave Iniada Bay immediately, having received Turkey's compliance with Russia's wishes. Turkey also pointed out that their presence encouraged revolution by its semblance to coercion of Turkey. The correspondent thinks that the despatch of the fleet was chiefly a sop to public sentiment in Russia.

G. A. R. EULOGIZES MILES. Resolution Adopted by the Encampment With Enthusiasm.

SAN FRANCISCO, Aug. 21.-The thirtyseventh annual encampment of the Grand Army of the Republic continued to-day The report of the committee on resolutions recommended legislation looking to instruction and education of such a nature as to prevent the desecration of the flag, provided for a special committee of five to investigate the alleged discrimination against Union veterans in appointments in the civil service, and recommended the establishment of soldiers' homes at Fort Sheridan, Idaho, and in Florida and Ok-

lahoma.

P. H. Coney of Topeka, Kan., introduced a resolution eulogizing the service and military career of Gen. Miles, and it was adopted with cheers. The proposition to enlarge the permanent membership of the encampment by admitting Past Adjutants and Generals was defeated.

NEGRO WILL DEMAND RIGHTS. Mrs. Ransom Says There Must Be General Disfranchisement.

CHICAGO, Aug. 21.-In an address before the Illinois State Federation of Colored Women's Clubs Mrs. Emma S. Ransom, wife of the Rev. Reverdy C. Ransom, said in reply to Booker T. Washington's plea for conciliation, that the negro would fight to the death rather than allow disfranchise-

"While the tide of disfranchisement "while to a higher level," said Mrs. Ransom, "the negro will never be disfranchised until he lies in his narrow house of six feet of earth. What the future portends we negroes coming from the public schools and higher institutions will never be trampled under foot simply because of the color of their skin, and that stalwart American, President Roosevelt, has taught the world anew to walk in the paths of justice and patriotism. INDIANA BAN ON NEGROES. Congressman Crumpacker Blamed for Bringing Them There.

LA PORTE, Ind., Aug. 21 .- The war against negro colonization in the white counties of northwestern Indiana, started by Editor Bowser of Porter county, is taking shape and advices are that the move is finding much favor throughout the section.

A plan backed by a New York corporation owning real estate in Porter county contemplates the settlement there of at least 300 negroes for farming purposes, and some have already arrived. Under those conditions, Mr. Bowser declares, there is grave danger, and he urges the citizens to refuse to rent or sell property of any kind to blacks or to give them any employment. He also deplores the friendship for the negro manifested by Congressman Crumpacker, for whom, he says, hundreds of black babies have been named. He charges the Congressman with respon-sibility for attracting the attention of these ettlers to his Congress district.

Negro Saved From Lynching.

NEW ORLEANS, Aug. 21 .- John Jackson, a negro, was nearly lynched near Many, Sabine Point, La., for assault on the wife of Harry Mason at Zwolle, a small town on the Kansas City Southern Railroad Mrs. Mason was badly injured in her struggle with the negro. Jackson was cap-tured shortly afterward and taken before Mrs. Mason and identified. An attempt was made to lynch him at Zwolle, but the constable succeeded in getting him to the parish prison.

LOCK-OUT IN JAMESTOWN.

Art Metal Construction Company Shuts Down, Throwing \$70 Men Out of Work. JAMESTOWN, N. Y., Aug. 21.-The em-

ployees of the Art Metal Construction Company have been demanding a nine-hour day for several months, and to-day the labor unions with which they are affiliated notified the management that unless the demand was complied with by 10 o'clock Saturday a strike would be ordered. The management responded this afternoon by posting this notice: This factory closes down to-night."

The labor leaders were taken by surprise, as the move was not anticipated, and committees of the unions involved are meeting this evening. The lock-out throws 570 men out of employment.

Conference Over Boston and Albany Strike. President James O'Connell of the International Association of Machinists and its general executive board had a conference esterday with Supt. Van Etten of the yesterday with Supt. Van Etten of the New York Central Railroad and Supt. Deems of the department of motive power, over the strike of the machin-ists in the repair shops of the Boston and Albany division. Nothing was settled, and it was agreed that another conference should take place on Tuesday in Boston, between Mr. Van Etten and two members of the executive committee.

WILL TAKE LOWER WAGES. Shipbuilding Workers Accept a Reduction

at 'Their Employers' Suggestion. BALTIMORE, Aug. 21.-By consenting o reduce their wages the members of the Boilermakers and Shipbuilders' Union have made it possible for their employers to prevent the repair business from leaving Baltimore and have insured steady employment for themselves. They agreed to decrease the wages for overtime for new work from 2% to 1% times the pay

received for overtime on old work. This action was taken after a conference at which the shipbuilders showed they could not compete with out-of-town firms at existing rates.

The representatives of the brotherhoods were also told that if they persisted the repair shops must necessarily be closed Through the efforts of the conservative members the reduction of the wages for overtime was decided upon. The agreement is to remain in force for a year. It is also agreed by the union workmen that under no consideration will they enter into a sympathetic strike. In case any differences arise between the members of their own union and the employers the dispute will be settled by arbitration.

NON-UNION MILLS KEPT GOING. Amalgamated Association May Have to Let Its Men Work in Them.

PITTSBURG, Aug. 21.-A circular was ent out from the Amalgamated Association headquarters to-day calling attention to the number of union plants of the American Sheet Steel Company that are closed and the non-union plants kept in operation. The advisory board will meet soon to declare non-union sheet mills open so that the union men can compete with the unorganized men.

LABOR TROUBLES MENACE THEM. Difficulties of Shippard Workers, Tinners and Plumbers in Elizabeth.

ELIZABETH, N. J., Aug. 21.-When Lewis Nixon was in Elizabeth on Wednesday last. ne uttered a warning to the men of the shipbuilding trades to the effect that when the Crescent yards reopened a repetition of the strikes that have hampered the plant in the past would seriously threaten the existence of the shipbuilding industry in Flizabeth. At a meeting called last night Phœnix Lodge of International Machinists, the main topic of discussion was a general strike of the shipbuilding

Sentiment was in favor of a strike. James Wilson, business agent of the New York district, was present. He said that a general strike of all the shipbuilding trades would be called in sympathy with the marine machinists against the "Townsend-Downey Alliance," as he called the Metal Trades' Association. The Crescent company is a member of the alliance. The majority of the citizens, a committee of whom is trying to induce Receiver Smith to reopen the Crescent yards, are much exasperated that there should be so much strike talk at the

present time.
The tinners of Elizabeth went on strike this morning. They had only yesterday returned to work after a strike. When the agreement made by their committee with the bosses, settling the trouble, was sub-mitted to the local union last night, it was rejected because it contained a clause against sympathetic strikes. The plumbers will probably be called out in sympathy.

SHIPBUILDERS WON'T YIELD.

All the Machinists' Demands Turned Down -General Strike Now, Maybe. Committees representing the unions in the shipbuilding trades and the New York Metal Trades Association met vesterday by agreement at 203 Broadway to alk over the strike of the marine machinists. They locked horns over the minimum wage rate of \$3 a day. The employers would concede nothing, though the union committee abandoned all its demands but the one for the minimum rate. The employers say that this decision is final, so unless the unions back down altogether nothing can avert a general tie-up in the shipyards. The representatives of the employers at the conference were Wallace Downey of the Townsend-Downey Company, N. F. or the Townsend-Downey Company, N. F. Palmer, M. K. Brown, Andrew Fletcher, Jr., Charles H. Smith, M. J. Davidson, Alexander Miller, and Robert S. Wyatt. James P. Archibald of the Brotherhood of Painters and Robert S. Wyatt. Painters was the general spokesman for the

machinists.

James Wilson of the machinists said later in the day that before action was taken the matter would be formally reported to the Central Federated Union, which ordered the appointment of the committee.

BACKS UP THE BOSSES. New Board of Walking Delegates Won't Deal With Engineers' Union.

The United Portable and Safety Engineers' Union sent a committee yesterday to the new Board of Representatives recognized by the Employers' Association, and tried to square itself with that board. The committee was informed that the union would have to sign the bosses' arbitration agreement before it could do business with the board.

ness with the board.

The board then appointed a committee to wait on the Employers' Association, with a view to bringing about a uniform way of arbitrating labor disputes. The first case to be arbitrated since the new General Arbitration Board was will be a trade dispute between the Broth-erhood of Carpenters and the Amalgamated Painters' Society.
Charles L. Eidlitz, president of the Em ployers' Association, said that the Broth-erhood of Painters and Decorators, which has about 6,000 members, had signed the arbitration agreement.

MINE UMPIRE'S DUTIES. Carroll D. Wright Will Pass On Only Four

Disputed Points. POTTSVILLE, Pa., Aug. 21.-Members of the board of conciliation which is settling disputes between the miners and operators

disputes between the miners and operators of the anthracite region made public a statement to-night which limits the powers of Carroll D. Wright, Commissioner of Labor, who has been appointed umpire for the board.

Instead of adjudicating all the important labor problems of the region, Secretary Nicholls said that only four questions will be submitted to Mr. Wright out of the 100 grievances yet to be settled. These include the question of blacklisting of miners and the rights of the employees of contract miners to participate in the award of the commission. Questions on which the board is deadlocked later may be submitted to commission. Questions on which the board is deadlocked later may be submitted to another umpire.

BABY KILLED BY WAGON. Driver Says the Child's Carriage Rolled Off

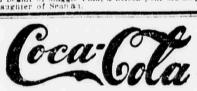

the Sidewalk. There are two stories as to how Dinah Malbin, a year-old girl, was killed at 104th street and Third avenue last night. A wagon belonging to a delicatessen dealer ran her down, and the driver of the wagon, Herman Hoffman, of 334 East Seventy-fourth street, is under arrest. The baby was in a carriage at the time. the baby was that the carriage was near the curb and in some way its wheels slipped off the sidewalk and inder the wheels of the wagon. Mrs. Malbin, the mother of the baby, who lives at 1964 Third avenue, says that the carriage was on the sidewalk, some distance from the curb, but that the wagon was so close to the curb that its shaft upset the carriage and threw it into
